

In these days at the workshop there was a lot of fun. Working together and learning from each other, but the most important thing was that we combined our skills to develop something great.

By combining the traditional Portuguese technique with contemporary ideas, we achieved experience and beautiful memories during this classes and exchanged pieces of information about our countries and cultures, and began getting along very well in the time we were knitting.

In the last day of our workshop we exchanged the materials, pieces of information and we, the Romanians, presented our best traditions and our greatest masterpieces from all around Romania.

The best experience was knitting on the beach, near the ocean, which was very relaxing and we had much fun talking to each other, making jokes and telling how our countries really are.

In the last of the workshop we also completed our work by decorating a pillar of the hostel where we are staying. Everybody can see that we worked together and achieved something wonderful.
